## PREFACE

In submitting Volume V of the High Point, N. C., City Directory it is gratifying to note the progress that is being made in industries and growth of population.

A great factor in the upbuilding of any city is its civic pride; the fact that your citizens stand as a unit on everything that affects the prosperity of your city is worthy of commendation.

The City Directory is one of the foremost enterprises of any city; it is generally referred to by the press of the whole country as a semi-public institution of great value.

The Directory is more than a mere list of names of residents, giving their various occupations and addresses, it is an infallible guide to your city, for your people and for the stranger within your gates. It not only deals with your people, but with your government, your institutions and various other organizations. It is a recognized standard work of reference and becomes the most reliable history of your city and its citizens. As there is no other publication in the world which gives the information as contained in the City Directory, there is probably no other publication in which all the people are so vitally interested.

To gather the data and compile a volume of this character is no easy task. It requires time, a well-defined system, acquired only by years of experience, the patience of Job and incurs no little expense. Few people have any idea of the work it means and the tenacity it takes to publish a reliable directory.

In preparing this book the publishers have spared neither time nor expense, and if errors occur or a single name is omitted which should appear in the work, it is generally the fault of the public and not of the publisher, as every house is visited and it is not the publisher's or canvasser's fault if some one fails to give all the information or gives it incorrectly. The intentions of the reliable publisher are always for improvement, and you can always count on getting as accurate a directory as circumstances will permit. No directory is perfect.

The estimate of the population of a city is a matter necessarily enjoined upon the directory publisher; such estimates, however, are not merely theoretical, but based on facts, sustained by the contents of the publication.

This volume contains 5,401 names of individuals; using the conservative multiple 2½ times, to represent the names of married women and children not counted indicates a population of

**13,503**

(This does not mean simply population inside the city limits, but takes in consideration all suburbs included in the Directory.)

In concluding, we desire to thank our patrons for their support and to extend our thanks to the public in general for the courteous way in which nearly every one supplied our canvassers with the desired data. We shall continue to publish The High Point Directory every two years.

Yours truly,

COMMERCIAL SERVICE CO.

ERNEST H. MILLER, Pres.

Advertising is what nothing was ever sold without. If a loaf of bread is sold to a tramp who managed to glom onto a jitney, it had been advertised by the tramp's hunger and by somebody who told the bo where the bakery was. Or by the window of the bakery itsclf. There isn't a human being who doesn't believe in advertising. If he really doesn't, he had better commit suicide. And that will give him a lot of publicity that nobody can cash in on. The man who claims not to believe in advertising is a— well, let Roosevelt say it. This boob is anxious for everybody to tell other people that his place is a good one to trade. But he won't give the advertiser anything for telling the other folks. He is a something-for-nothing tightwad. The man who puts on good clothes advertises his own respectability, and expects results in the shape of the respect of others. The man who dresses poorly because of necessity or purposely, advertises his poverty and expects results in other people's help or contempt. The doctor claims it is unethical to advertise, but he wants the newspaper to mention every time he has a case. Unless he loses it. In fact, every honest person wants advertising. Only dishonest people are afraid of it, and they get it anyway.
